

Prime Detailed Formulary Guide

v. 2026-01

Prime Detailed Formulary Guide

The Prime Formulary Guide outlines the tier coverage and suggested limitations of the most commonly prescribed medications. A formulary is the list of drugs available for certain conditions and organized by tiers (cost levels).

Drug Tier	Types of Drugs Included	Cost
1	Generic Drugs and some Brand Name	Lowest Copay
2	Preferred Brand Name Drugs	Medium Copay
3	Non-Preferred Brand Name Drugs and some Generic Drugs	Higher Copay

Brand name and generic medications may be found in any tier.

Limits	Description
INJ – Injectable Drug	Product is administered via an injectable route of administration and may be subject to a separate benefit.
QL – Quantity Limit	Drug is subject to a specific quantity per days supply due to patient safety or cost containment measures.
SP – Specialty Program	Drug is designated as a specialty drug and may be subject to a separate specialty benefit.
ST – Step Therapy	A more cost-effective option must be tried before a Step Therapy drug may be covered.

Preferred and non-preferred brand name medications are listed to help identify clinically appropriate and cost-effective options within drug categories. Unless specifically indicated, drug list products will include all dosage forms. This is not an all-inclusive list and does not guarantee coverage.

Medications listed may change to a lower tier at any time. Medications may also be moved to non-preferred status twice a year on January 1 and July 1.

A brand-name drug for which a generic product becomes available may be designated as a non-preferred option upon release of the generic product to the market. Products recently approved by the U.S. Food and Drug Administration (FDA) may not be covered upon release to the market.

When a medication changes tiers, the member may have to pay a different amount for that medication. The member's specific prescription benefit plan design may not cover certain products or categories regardless of their appearance in this document. For the most up-to-date list call customer service at the toll-free member phone number on the ID card.

Need assistance finding a drug on this formulary guide? *An alphabetical index is included at the end of the formulary listing. You may also press Control + F to search for the product name.*
